INDEPENDENT AUDITORS' REPORT

To the Members of Northern Credit Union Limited

We have audited the accompanying consolidated financial statements of Northern Credit Union Limited, which comprise the consolidated statement of financial position as at December 31, 2014, and the consolidated statements of income, comprehensive income (loss), changes in members' equity and cash flows for the year ended December 31, 2014, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Northern Credit Union Limited as at December 31, 2014 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

1. Reporting entity:

Northern Credit Union Limited (the "Credit Union"), was incorporated under the laws of Ontario and operates in compliance with the Credit Union Caisse Populaires Act of Ontario (the "Act"). The Credit Union is a member of the Deposit Insurance Corporation of Ontario ("DICO") and of the Central 1 Credit Union. The Credit Union is domiciled in Canada. The address of the Credit Union's registered office is 280 McNabb Street, Sault Ste. Marie, Ontario. The Credit Union is primarily involved in corporate and retail banking.

2. Basis of preparation:

(a) Statement of compliance:

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (the IASB).

These consolidated financial statements have been authorized for issue by the Board of Directors on February 26, 2015.

(b) Basis of measurement:

The consolidated financial statements have been prepared on the historical cost basis except for the following:

- derivative financial instruments are measured at fair value
- non-derivative financial instruments at fair value through profit or loss are measured at fair value
- available for sale financial assets are measured at fair value
- the liability for defined benefit obligation is recognized as the present value of the defined benefit obligations less the total of the plan assets.

(c) Functional and presentation currency:

The Credit Union's functional and presentation currency is the Canadian dollar. The financial statements are presented in Canadian dollars.

(d) Use of estimates and judgments:

The preparation of consolidated financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Credit Union's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 4 below.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies:

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements.

(a) Basis of consolidation:

The consolidated financial statements include the financial statements of the wholly-owned subsidiary company, 2011500 Ontario Limited. The financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. All material intercompany transactions and balances have been eliminated.

(b) Loans receivable from members:

Loans are initially measured at fair value plus incremental direct transaction costs less loan fees received and subsequently remeasured at their amortized cost using the effective interest method. Loans receivable from members are reported net of an allowance for credit losses.

(i) Loan interest:

Interest income from loans is recorded on the effective yield basis. Accrued but uncollected interest is provided for when loans are determined to be impaired.

(ii) Provision for credit losses:

The Credit Union maintains a provision for credit losses, which, in management's opinion, is considered adequate to provide for credit-related losses.

The Credit Union considers evidence of impairment for loans receivable at both a specific asset and collective level. All individually significant receivables are assessed for specific impairment. All individually significant receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Receivables that are not individually significant are collectively assessed for impairment by grouping together receivables with similar risk characteristics.

In assessing collective impairment the Credit Union uses historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgment as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

(c) Interest income and expense:

Interest income and expense are recognized in the consolidated statement of income using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability to its fair value at inception. The effective interest rate is established on initial recognition of the financial asset or liability and is not revised subsequently.

The calculation of the effective interest rate includes all fees and points paid or received and transaction costs and discounts or premiums that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

(d) Non-interest revenue:

Fees and commission income and expense that are integral to the effective interest rate on a financial asset or liability are included in the measurement of the effective interest rate.

Other fees and commission income, including account servicing fees, investment management fees, sales commission, placement fees and syndication fees, are recognized as the related services are performed. When a loan commitment is not expected to result in the draw-down of a loan, the related loan commitment fees are recognized on a straight-line basis over the commitment period.

Other fees and commission expense relate mainly to transaction and service fees, which are expensed as the services are received.

Net income from other financial instruments designated at fair value through profit or loss relates to non-trading derivatives held for risk management purposes that do not form part of qualifying hedge relationships and financial assets and liabilities so designated, and includes all realized and unrealized fair value changes, interest, dividends and foreign exchange differences.

Dividend income is recognized when the right to receive income is established. Usually this is the ex-dividend date for equity securities. Dividends are reflected as a component of net trading income, net income from other financial instruments at fair value through profit or loss or other operating income based on the underlying classification of the equity investment.

(e) Cash and cash equivalents:

Cash and cash equivalents includes cash on hand, current accounts, cheques and other items in transit. Given their short term nature, the carrying value of cash and cash equivalents equals fair value.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

(f) Financial instruments - non-derivative financial instruments:

The Credit Union initially recognizes loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognized initially on the trade date at which the Credit Union becomes a party to the contractual provisions of the instrument.

The Credit Union derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Credit Union is recognized as a separate asset or liability.

The Credit Union has the following non-derivative financial assets: financial assets at fair value through profit or loss, held-to-maturity financial assets, loans and receivables and available-for-sale financial assets.

Non-derivative financial instruments comprise cash and cash equivalents, investments, loans to members, members' deposits, accounts payable and accrued liabilities and liabilities qualifying as regulatory capital.

Fair value through profit and loss:

Financial assets and liabilities designated as fair value through profit and loss ("FVTPL") are financial instruments either classified as held for trading ("HFT") or are managed and evaluated on a fair value basis in accordance with a documented risk management strategy. HFT financial assets and liabilities are acquired or incurred principally for resale, generally within a short period of time.

FVTPL financial assets and liabilities are measured at fair value at each reporting date. Gains and losses realized on disposal together with dividends and interest earned on these instruments are reported in interest and investment income. Unrealized gains and losses from market fluctuations are reported separately in the consolidated statement of income. There are regulatory restrictions imposed by the Financial Services Commission of Ontario on the use of this designation including that loan financial assets are precluded from being designated at FVTPL and that the fair value designated financial instruments are managed on a fair value basis.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

(f) Financial instruments – non-derivative financial instruments (continued):

Offsetting:

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Credit Union has the legal right to set off the recognized amounts and it intends either to settle on a net basis or to realized the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRSs, or for gains and losses arising from a group of similar transactions such as the Credit Union's trading activities.

Held to maturity:

Held to maturity financial assets are non-derivative financial assets with fixed or determinable payments and a fixed maturity, other than loans and receivables, that the Credit Union has the positive intention and ability to hold to maturity. These financial assets are initially recognized at fair value including direct and incremental transaction costs. They are subsequently accounted for at amortized cost using the effective interest rate method.

Available for sale:

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale and that are not classified in any of the previous categories. The Credit Union's investments in equity securities and certain debt securities are classified as available-for-sale financial assets. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses (see note 3(b) (ii)), are recognized in other comprehensive income and presented within equity in the fair value reserve. When an investment is derecognized, the cumulative gain or loss in other comprehensive income is transferred to profit or loss.

Loans and receivables:

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

Loans and receivables comprise trade and other receivables.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

(f) Financial instruments – non-derivative financial instruments (continued):

Other liabilities:

The Credit Union has designated all financial liabilities with the exception of derivatives as Other Liabilities. Financial liabilities designated as Other Liabilities are recorded at amortized cost. Interest incurred on these liabilities is included in interest expense. Transaction costs related to Other Liabilities are capitalized and then amortized over the life of the instrument using the effective interest method.

(g) Financial instruments - derivative financial instruments:

Derivative financial instruments are financial contracts that require or provide an option to exchange cash flows or payments determined by applying certain rates, indices or changes therein to notional contract amounts. The Credit Union periodically enters into derivative contracts to manage financial risks associated with movements in interest rates and other financial indices such as interest rate swaps and equity swap agreements. The Credit Union's policy is not to utilize derivative financial instruments for trading or speculative purposes.

Derivative financial instruments are recorded on the consolidated statement of financial position at fair value, including those derivatives that are embedded in financial or non-financial contracts that are closely related to the host contracts. Changes in the fair value of those derivative instruments are recognized in net income for the year. The Credit Union does not apply hedge accounting on its derivative portfolio.

(h) Financial instruments - derecognition:

For securitization transactions initiated prior to the date of transition to IFRS, in accordance with pre-changeover Canadian GAAP, the loan securitizations were treated as a sale, provided that control over the transferred loans has been surrendered and consideration other than beneficial interests in the transferred loans has been received in exchange. Gains on these transactions were reported as non-interest revenue. The amount of these gains are based on the present value of expected future cash flows using management's best estimates and key assumptions such as prepayment rates, excess spread, credit (losses) and discount rates. The Credit Union has a contractual obligation to service the loans on behalf of the transferee.

For securitization transactions initiated after the date of transition to IFRS, loans are derecognized only when the contractual rights to receive the cash flows from these assets have ceased to exist or substantially all the risks and rewards of the loans have been transferred. If the criteria for derecognition has not been met, the securitization is reflected as a financing transaction and the related liability is initially recorded at fair value and subsequently measured at amortized costs, using the effective interest rate method.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

(i) Other assets:

Included in other assets are costs incurred in equity swap agreement hedge premiums and prepaid software maintenance costs. Hedge premiums are recorded as expense using the effective interest rate method over the term of the agreement.

(j) Intangible assets:

Computer software that is not an integral part of other property and equipment is accounted for as intangible assets. Computer software is stated at cost less accumulated amortization and is presented as part of property and equipment on the consolidated statement of financial position. Amortization of computer software is calculated by applying the straight-line method at rates based on estimated useful lives between 3 and 10 years.

(k) Property and equipment:

Property and equipment is stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is provided on the straight-line basis over the estimated useful lives of the assets as follows:

rs
rs
rs
rs
rs
l

Depreciation methods, useful lives and residual values are reviewed annually and adjusted if necessary.

(I) Impairment of non-financial assets:

Non-financial assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, which is the higher of value in use and fair value less costs to sell, the asset is written down accordingly.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash-generating unit, which is the lowest group of assets in which the asset belongs for which there are separately identifiable cash flows. The Credit Union has 26 cash-generating units. Impairment charges are included in net income.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

(m) Income taxes:

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in net income except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any adjustment to income taxes payable in respect of previous years. Current income taxes are measured at the amount expected to be recovered from or paid to the taxation authorities. This amount is determined using tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction affects neither accounting or taxable profit or loss.

Recognition of deferred tax assets for unused tax (losses), tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available which allow the deferred tax asset to be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The amount of the deferred tax asset or liability is measured at the amount expected to be recovered from or paid to the taxation authorities. This amount is determined using tax rates and tax laws that have been enacted or substantively enacted by the reporting date and are expected to apply when the liabilities / (assets) are settled / (recovered).

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

(n) Foreign currency translation:

The consolidated financial statements are presented in Canadian dollars, which is the Credit Union's presentation and functional currency. Assets and liabilities denominated in foreign currencies, primarily US dollars, are translated into Canadian dollars at rates prevailing at the year-end date. Income and expenses are translated at the exchanges rates in effect on the date of the transactions. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortized cost in foreign currency translated at the exchange rate at the end of the reporting period. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognized in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments are recognized in other comprehensive income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

(o) Employee retirement benefits:

i) Defined benefit plans:

The Credit Union's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

(o) Employee retirement benefits (continued):

i) Defined benefit plans (continued):

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Credit Union, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in OCI. The Credit Union determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in personnel expenses in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Credit Union recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

ii) Defined contribution plans:

The Credit Union also has defined contribution plans providing pension benefits for eligible employees not included in the defined benefit plan.

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognized as an employee benefit expense in profit or loss in the periods during which services are rendered by employees. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available. Contributions to a defined contribution plan that are due more than 12 months after the end of the period in which the employees render the service are discounted to their present value.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

(p) Leased assets:

Leases in terms of which the Credit Union assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Other leases are operating leases and, except for investment property, the leased assets are not recognized in the Credit Union's statement of financial position. Investment property held under an operating lease is recognized in the Credit Union's statement of financial position at its fair value.

(q) Provisions:

A provision is recognized if, as a result of a past event, the Credit Union has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as financing cost.

(r) New standards and interpretations not yet effective:

i) Amendments to IAS 32, Offsetting Financial Assets and Liabilities:

The amendments to IAS 32 clarify the allowable circumstances for an entity to present a financial asset and liability as a net balance ('offsetting'). The amendments also describe when a settlement mechanism provides for net settlement or gross settlement that is equivalent to net settlement. The Company intends to adopt the amendments to IAS 32 in its financial statements for the fiscal year beginning January 1, 2015 with the amendments applied retrospectively. The Company does not expect the amendments to have a material impact on the financial statements.

ii) IFRS 15 Revenue from Contracts with Customers:

On May 28, 2014 the IASB issued IFRS 15 Revenue from Contracts with Customers. The new standard is effective for annual periods beginning on or after January 1, 2017. Earlier application is permitted.

IFRS 15 will replace IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programs, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfer of Assets from Customers, and SIC 31 Revenue – Barter Transactions Involving Advertising Services.

The standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

- (r) New standards and interpretations not yet effective (continued):
 - iii) IFRS 15 Revenue from Contracts with Customers (continued):

The new standard applies to contracts with customers. It does not apply to insurance contracts, financial instruments or lease contracts, which fall in the scope of other IFRSs.

The Credit Union intends to adopt IFRS 15 in its financial statements for the annual period beginning on January 1, 2017. The extent of the impact of adoption of the standard has not yet been determined.

iv) IFRS 9 Financial Instruments ("IFRS 9"(2014)):

The mandatory effective date of IFRS 9 is for annual periods beginning on or after January 1, 2018 and must be applied retrospectively with some exemptions. Early adoption is permitted. The restatement of prior periods is not required and is only permitted if information is available without the use of hindsight.

IFRS 9 (2014) introduces new requirements for the classification and measurement of financial assets. Under IFRS 9 (2014), financial assets are classified and measured based on the business model in which they are held and the characteristics of their contractual cash flows.

The standard introduces additional changes relating to financial liabilities.

It also amends the impairment model by introducing a new 'expected credit loss' model for calculating impairment.

IFRS 9 (2014) also includes a new general hedge accounting standard which aligns hedge accounting more closely with risk management. This new standard does not fundamentally change the types of hedging relationships or the requirement to measure and recognize ineffectiveness, however it will provide more hedging strategies that are used for risk management to qualify for hedge accounting and introduce more judgment to assess the effectiveness of a hedging relationship.

Special transitional requirements have been set for the application of the new general hedging model.

The Credit Union intends to adopt IFRS 9 in its financial statements for its fiscal year beginning on January 1, 2018. It is expected that IFRS 9, when initially applied, will have a significant impact on the Credit Union's financial statements. As well, the implementation and ability to elect options provided by the new standards may be influenced by the regulators (DICO).

Notes to Consolidated Financial Statements

Year ended December 31, 2014

3. Significant accounting policies (continued):

- (r) New standards and interpretations not yet effective (continued):
 - v) Annual Improvements to IFRS (2010 2012) and (2011 2013) cycles:

On December 12, 2013 the IASB issued narrow-scope amendments to a total of nine standards as part of its annual improvements process. The IASB uses the annual improvements process to make non-urgent but necessary amendments to IFRS.

Most amendments will apply prospectively for annual periods beginning on or after July 1, 2014; however, the amendments to IFRS 2 and IFRS 3 refer to grant dates and dates of acquisition, respectively, on or after July 1, 2014. Earlier application is permitted, in which case, the related consequential amendments to other IFRSs would also apply Amendments were made to clarify the following in their respective standards:

Classification and measurement of contingent consideration; and scope exclusion for the formation of joint arrangements in IFRS 3 *Business Combinations*

- Disclosures on the aggregation of operating segments in IFRS 8 Operating segments;
- Measurement of short-term receivables and payables; and scope of portfolio exception in IFRS 13 Fair Value Measurement;
- Definition of "related party" in IAS 24 Related Party Disclosures; and

Special transitional requirements have been set for amendments to IFRS 2, IAS 16, IAS 38 and IAS 40.

The Credit Union intends to adopt these amendments in its financial statements for the annual period beginning on January 1, 2015. The extent of the impact of adoption of the amendments has not yet been determined.

vi) Annual Improvements to IFRS (2012 - 2014) cycle:

On September 25, 2014 the IASB issued narrow-scope amendments to a total of four standards as part of its annual improvements process.

The amendments will apply for annual periods beginning on or after January 1, 2016. Earlier application is permitted, in which case, the related consequential amendments to other IFRSs would also apply.

Each of the amendments has its own specific transition requirements.

Amendments were made to clarify the following in their respective standards:

- Changes in method for disposal under IFRS 5 Non-current Assets Held for Sale and Discontinued Operations;
- Continuing involvement' for servicing contracts and offsetting disclosures in condensed interim financial statements under IFRS 7 Financial Instruments: Disclosures;
- Discount rate in a regional market sharing the same currency under IAS 19 Employee Benefits

The Credit Union intends to adopt these amendments in its financial statements for the annual period beginning on January 1, 2016. The extent of the impact of adoption of the amendments has not yet been determined.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

4. Critical accounting estimates and judgments:

The Credit Union makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only; or in the period of the change and future periods, if the change affects both.

Fair value of financial instruments:

The Credit Union determines the fair value of financial instruments that are not quoted in an active market, using valuation techniques. Those techniques are significantly affected by the assumptions used, including discount rates and estimates of future cash flows. In that regard, the derived fair value estimates cannot always be substantiated by comparison with independent markets and, in many cases, may not be capable of being realized immediately.

The methods, and assumptions applied, and the valuation techniques used, for financial instruments that are not quoted in an active market are disclosed in note 18.

Member loan loss provision:

In determining whether an impairment loss should be recorded in the statement of comprehensive income, the Credit Union makes judgment on whether objective evidence of impairment exists individually for financial assets that are individually significant. Where this does not exist, the Credit Union uses its judgment to group member loans with similar credit risk characteristics to allow a collective assessment of the group to determine any impairment loss.

In determining the collective loan loss provision management uses estimates based on historical loss experience for assets with similar credit risk characteristics and objective evidence of impairment. Further details on the estimates used to determine the allowance for impaired loans collective provision are provided in note 6.

Income taxes:

The Credit Union periodically assesses its liabilities and contingencies related to income taxes for all years open to audit by the tax authorities based on the latest information available. For matters where it is probable that an adjustment will be made, the Credit Union records its best estimate of the tax liability including the related interest and penalties in the current tax provision. Management believes they have adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

	\$ 711,717,482		\$ 672,385,636		

Notes to Consolidated Financial Statements

Year ended December 31, 2014

6. Allowance for impaired loans:

Details of the activity in the allowance for impaired loans are as follows:

		Residential	Personal	Commercial	2014	2013
	Morto	gage Loans	Loans	Loans	Total	Total
						_
Balance, beginning of year	\$	86,272	1,541,590	1,047,310	2,675,172	\$ 2,480,462
Recoveries Loans written-off Provision for impaired loans		_ (204,288)	145,429 (705,768)	- (540,965)	145,429 (1,451,021)	108,394 (792,064)
during the year		155,486	1,021,439	291,631	1,468,556	878,380
Balance, end of year	\$	37,470	2,002,690	797,976	2,838,136	\$ 2,675,172

For the year ended December 31, 2014, accrued interest of \$124,343 was recorded on impaired loans (2013 - \$113,271).

Details of the impaired loans, net of specific allowances are as follows:

2014	Mort	Residential tgage Loans	Personal Loans	Commercial Loans	Total
Impaired loans Specific allowance	\$	8,275,048 37,222	3,140,455 1,936,299	6,036,248 274,461	17,451,751 2,247,982
Net	\$	8,237,826	1,204,156	5,761,787	15,203,769

2013	Mor	Residential Mortgage Loans		Commercial Loans	Total
Impaired loans Specific allowance	\$	7,380,547 76,822	1,882,153 1,428,890	2,314,465 806,180	11,577,165 2,311,892
Net	\$	7,303,725	453,263	1,508,285	9,265,273

The Credit Union's commercial loan portfolio contains Member concentration risk, whereby a large amount of the loans are connected to certain individuals. Collectively, the largest five commercial Members by loan dollar value are associated with approximately 20% (2013 - 20%) of the commercial loan portfolio.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

6. Allowance for impaired loans (continued):

The Credit Union's commercial loan portfolio consists of the following industry sectors:

	2014	2013
Hospitality	24%	23%
Retail and Commercial Buildings	49%	44%
Other	27%	33%

Past due but not impaired loans:

The Credit Union has the following loans that are past due but not impaired:

	2014	2013
31 to 90 days past due	\$ 3,938,846	\$ 4,538,619

Collateral:

There are documented policies and procedures in place for the valuation of financial and non-financial collateral. The fair valuation exercise of non-financial collateral is performed if there has been a significant change in the terms and conditions of the loan and (or) the loan is considered impaired. For impaired loans, an assessment of the collateral is taken into consideration when estimating the net realizable amount of the loan.

The amount and type of collateral and other credit enhancements required depend upon the Credit Union's assessment of counterparty credit quality and repayment capacity. The Credit Union complies with industry standards for collateral valuation, frequency of recalculation of the collateral requirements, documentation, registration and perfection procedures and monitoring.

Non-financial assets accepted by the Credit Union as collateral include vehicles, residential real estate, real estate under development, commercial real estate and certain business assets (accounts receivable, inventory, property and equipment). Financial collateral includes cash and negotiable securities issued by governments and investment grade issuers. Guarantees and are also accepted to reduce credit risk. The Credit Union also uses credit insurance on mortgage loans to reduce the credit risk.

The fair value of collateral held with respect to assets that are either past due greater than 30 days or impaired is \$19,480,705 as at December 31, 2014 (2013 - \$11,242,971).

Notes to Consolidated Financial Statements

Year ended December 31, 2014

6. Allowance for impaired loans (continued):

Credit risk:

The following tables illustrate the credit quality of loans that are neither past due nor impaired:

Retail Mortgag	Retail Mortgage and Personal Loans Commercial Loans			
Rating	% of Portfolio	Rating	% of Portfolio	
Undoubted	15%	Undoubted	0%	
Superior	21%	Superior	6%

Undoubted	19%	Undoubted	0%
Superior	18 %	Superior	6%
Satisfactory	62 %	Satisfactory	88%
Watch List	1%	Watch list	6%

Refer to Note 21 – Financial Risk Management for a detailed explanation of the credit risk rating process of both portfolios.

7. Securitized liabilities:

As part of its program of liquidity, capital, and interest rate risk management, the Credit Union enters into arrangements to fund loan growth by selling residential mortgages to unrelated third parties.

As part of these mortgage receivable transfers, the Credit Union retains mortgage servicing responsibilities but does not receive an explicit servicing fee for its servicing responsibilities. The Credit Union's retained interest in the mortgages sold also consists of their right to future cash flows arising from any excess of the mortgage cash flows over and above the contractual return due to the mortgage pool investors. The Credit Union's retained interests are subject to credit, prepayment, and interest rate risks on the securitized mortgages.

The third parties, as holders of the securitized mortgages, have recourse only to a cash collateral account and cash flow from the securitized mortgages. The investors and the third parties have no recourse to the Credit Union's other assets.

In accordance with the Credit Unions accounting policy the transferred financial assets continue either to be recognized in their entirety or to the extent of the continuing involvement, are derecognized in their entirety.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

7. Securitized liabilities (continued):

i) Transferred Financial Assets that are recognized in their entirety:

At year end, Mortgage Backed Securities secured by residential mortgage loans of \$43,098,353 (2013 - \$14,892,461) bearing a weighted average fixed interest rate of 1.8611% (2013 - 2.208%), expected weighted average maturity date of 2018 were outstanding under this arrangement.

ii) Transferred Financial Assets that are derecognized in their entirety:

Transferred financial assets that are derecognized in their entirety at December 31, 2014 was \$Nil (2013 - \$4,480,046).

The total amount of securitized mortgages under administration as at December 31, 2014 was \$43,098,353 (2013 - \$19,372,507).

The total amount of retained interests to future excess spread recorded in increments as at December 31, 2014 was \$Nil (2013 - \$101,488). The component of retained interests related to future excess spread are designated as Available for Sale.

8. Investments:

		2014	2013
Available for sale:

	\$	56,791,514	\$ 54,911,153

Notes to Consolidated Financial Statements

Year ended December 31, 2014

8. Investments (continued):

The following summarizes the Credit Union's investments by the contractual repricing or maturity date, whichever is earlier:

	20	2014 201;		
	Principal	Average	Principal	Average
	Balance	Yield	Balance	Yield
Within 1 year	\$ 24,855,480	1.48 %	\$ 17,747,151	1.15%
Over 1 year	23,623,625	1.23%	28,206,494	1.47%
	48,479,105	1.36%	45,953,645	1.36%
Non-rate sensitive	7,750,431		8,549,345	
Accrued interest	561,978		408,163	
	\$ 56,791,514		\$ 54,911,153	

a) Shares in Central 1:

As a member of Central 1, the Credit Union is required to maintain an investment in Central 1 shares equal to its share of the level of capital required by Central 1. The Credit Union's Share of Central 1 capital requirements are based on asset size relative to other Class "A" members. Central 1 rebalances the investment annually.

When Credit Union Central of Ontario Limited ("CUCO") and Credit Union Central of British Columbia ("CUCBC") merged to form Central 1, CUCO sold substantially all of its assets to Central 1 in exchange for Class A and Class E shares. As there is no active market for these shares, the shares are not sellable, and, as a result of continued investment in these shares, the Credit Union receives significant benefits from Central 1, fair market value is not reliably determinable as future cash flows cannot be adequately predicted with a standard valuation technique. As a result, these shares are carried at cost. The Credit Union does not intend to dispose of the shares in the near future.

The shares may be surrendered upon withdrawal from membership for proceeds equal to the paid-in value, to be received in accordance with a Central 1 by-law providing for the redemption of its share capital.

b) Investment in CUCO Cooperative Association:

As a result of the merger between CUCO and CUCBC to form Central 1 in 2008, member credit unions were required to invest in a limited partnership ("ABCP LP") in order to acquire third-party asset-backed commercial paper ("ABCP"). Members of CUCO were required to purchase units in the ABCP LP based on their proportionate asset size.

On August 31, 2011, ABCP LP sold all of its assets to the CUCO Cooperative Association ("CUCO Co-op") in exchange for CUCO Co-op Class B Investment Shares. Subsequently, on September 2, 2011, ABCP transferred to the Credit Union its proportionate share of CUCO Co-op Class B Investment Shares. As a result, the Credit Union received 1,081,848,866 Class B Shares.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

8. Investments (continued):

b) Investment in CUCO Cooperative Association:

At December 30, 2012 and December 30, 2011, an independent valuation was completed on the underlying investments of the CUCO Co-op utilizing valuation techniques based on discounting expected future cash flows. The valuation was based on conditions existing at the statement of financial position date. As a result of this valuation and distributions from CUCO Co-op, the carrying value of the investment in the CUCO Co-op on the Credit Union's balance sheet was decreased to \$1,710,388 (2013 - \$2,704,665). During the year the Credit Union received \$1,135,090 from the CUCO Co-op, of which \$1,135,090 has been recorded as a return of the initial capital invested and \$Nil has been recorded as interest income. In addition, as these investments have been designated as FVTPL a fair value adjustment of \$140,813 has been recorded in income for 2014 (2013 - \$442,604).

c) Central 1 Liquidity reserve deposit:

The Credit Union is a member of Central 1. As a condition of maintaining membership in Central 1 in good standing, the Credit Union is required to maintain on deposit an amount equal to 6% of its assets as at each preceding month end. The deposits bear interest at varying rates, dependent upon the term of the investment, and have been designated as Loans and Receivables.

d) Other shares:

The Credit Union maintains other instruments which are non-interest bearing. These shares have been designated as Available for Sale, but carried at cost as they are not traded in an active market and fair value cannot be measured reliably.

9. Other assets:

	2014	2013
Other Prepayments	\$ 535,725 1,015,120	\$ 525,204 957,352
	\$ 1,550,845	\$ 1,482,556

Notes to Consolidated Financial Statements

Year ended December 31, 2014

10. Property and equipment and intangible assets:

				2014
	Cost	-	accumulated depreciation	Carrying amount

Notes to Consolidated Financial Statements

Year ended December 31, 2014

12. Short-term borrowings with Central 1 Credit Union:

The Credit Union has authorized credit facilities available with Central 1 in the aggregate amount of \$35 million. These credit facilities are secured by a general security agreement and an assignment of book debts. At the end of the year, \$8,000,000 (2013 - \$10,000,000) was outstanding under this facility.

13. Liabilities qualifying as regulatory capital:

	2014	2013
Membership shares Patronage shares Investment shares	\$ 1,339,436 1,360,405 27,864,101	\$ 1,331,036 1,440,690 7,647,383
	\$ 30,563,942	\$ 10,419,109

Patronage and Investment shares are recognized as a liability, equity or compound instrument based on the terms and in accordance with IAS 32, Financial Instrument Presentation and IFRIC 2 Members' Shares in Cooperative Entities and Similar Instruments. If they are classified as equity, they are recognized at cost net of transaction costs. If they are recognized as liability, they are initially recognized at fair value net of any transaction costs directly attributable to the issuance of the instrument and subsequently carried at amortized cost using the effective interest rate method.

Terms and Conditions

Membership Shares

Membership shares have a par value of \$5 per share and members eighteen years of age and over are required to have a minimum of five shares. Members under the age of eighteen are required to have one share. Membership share balances can be withdrawn only upon termination of membership and approval of the directors. At December 31, 2014, there were 54,284 members of the Credit Union holding 267,887 membership shares (2013 - 55,026 members holding 266,207 shares). Dividends are at the discretion of the Board of Directors.

Funds invested by members in member shares are not insured by DICO. The withdrawal of member shares is subject to the Credit Union maintaining adequate regulatory capital (see note 14), as is the payment of any dividends on these shares. Membership shares are available for redemption and based on their features are classified as a liability.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

13. Liabilities qualifying as regulatory capital (continued):

Patronage Shares

The Credit Union is authorized to issue an unlimited number of non-voting, non-participating, Class A non-cumulative, redeemable patronage shares. Class A non-cumulative redeemable patronage shares can only be withdrawn subject to any restrictions imposed by the Credit Unions and Caisses Populaires Act, 1994. Issued and outstanding shares as at December 31, 2014 were 1,360,405 (2013 - 1,440,690). Patronage shares are available for redemption and based on their features are classified as a liability.

Patronage share redemptions are at the discretion of the Directors to a maximum of 10% of the shares outstanding at the previous year end.

Investment Shares

Class B investment shares pay dividends at the discretion of the Board of Directors in the form of cash or additional shares, to a maximum of 10% of the shares outstanding at the previous year end. The Credit Union has the option to redeem these shares in whole or in part or on a pro-rata basis any time after five years from the date of issuance. Issued and outstanding shares as at December 31, 2014 were 27,864,101 (2013 - 7,647,383). Investment shares are non-voting, are available for redemption and based on their features are classified as a liability.

On November 1, 2014, the Credit Union issued 19,962,168 Class B investment shares, Series 2014, at a price of \$1.00 per share for gross proceeds of \$19,962,168. The share issuance costs related to the sale of these shares totaled \$99,225. The resulting net proceeds from the share issuance was \$19,862,943.

On November 1, 2014, the Credit Union issued a 1.0% share dividend on Class B investment shares, Series 2014, totaling \$199,609 and 199,609 shares.

14. Capital management:

The Credit Union maintains policies and procedures relative to capital management so as to ensure that capital levels are sufficient to cover risks inherent in the business.

The Credit Union's objectives when managing capital are to implement a policy that:

- ensures that the quantity, quality and composition of capital needed that reflects the inherent risks of the Credit Union and to support the current and planned operations; and
- provides distributions of dividends and redemptions of capital instruments to members.

The Credit Union Act requires credit unions to maintain minimum regulatory capital, as defined by the Act. Regulatory capital is calculated as a percentage of total assets, and of risk-weighted assets. Risk-weighted assets are calculated by applying risk weight percentages, as prescribed by the Act, to various asset categories, operational and interest rate risk criteria. The prescribed risk weights are dependent upon the degree of risk inherent in the asset.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

14. Capital management (continued):

The Act requires credit unions to maintain a capital ratio of 4.00% and a risk-weighted capital ratio of 8.00%. The Credit Union has a stated policy that it will maintain at all times capital equal to the minimum required by the Act plus a prudent cushion. The current minimum ratios per board policy are a capital ratio of 4.00% and a risk-weighted capital ratio of 8.00%. The Credit Union is in compliance with the Act as indicated by the table below:

	Regulatory Capital	Capital leverage minimum actual		Risk v minimum	sk weighted um actual	
December 31, 2014	\$ 71,347,179	4.00%	8.78%	8.00%	16.92%	
December 31, 2013	\$ 49,909,341	4.00%	6.50%	8.00%	12.60%	

The Credit Union manages its Tier 1 and Tier 2 capital in accordance with internal policies and regulatory requirements. Tier 1 capital is the highest quality and consists of retained earnings, membership shares and the portion of the value of Class A and B investment and patronage shares that are not redeemable within 12 months. Tier 2 capital is comprised of the value of Class A and B investment and patronage shares ineligible as Tier 1 capital and the eligible portion of the allowance for impaired loans.

The amount of composition of Tier 1 and Tier 2 capital was as follows:

	2014	2013
Tier 1 Capital		
Retained earnings	\$ 31,300,298	\$ 30,234,167
Accumulated actuarial losses on defined benefit plan	_	_
Contributed surplus	8,892,785	8,892,785

Non-specific collective allowance for impaired loans	590,154	363,280
Total regulatory capital	\$ 71,347,178	\$ 49,909,341

Notes to Consolidated Financial Statements

Year ended December 31, 2014

15. Commitments and contingencies:

- (a) As at December 31, 2014, commitments for authorized but not issued loans to members amounted to approximately \$21,237,927 (2013 \$24,021,323).
- (b) As at December 31, 2014, commitments for unused lines and letters of credit amounted to approximately \$114,131,761 and \$2,033,121, respectively (2013 \$112,326,978 and \$1,424,790, respectively).
- (c) The Credit Union has commitments for the rental of branch premises under long-term noncancelable operating leases and other rental agreements which expire on various dates to 2028. Future annual minimum lease payments are approximately as follows:

2015	\$ 532,641
2016	476,370
2017	471,665
2018	473,165
2019	467,465
Thereafter	1,446,670

(d) The Credit Union is involved in certain legal matters and litigation from time to time, the outcomes of which are not presently determinable. The effects, if any, from such contingencies will be accounted for in the periods in which the matters are probable.

16. Income taxes:

The components of income tax expense (benefit) are as follows

	2014	2013
Current income tax expense Deferred income tax (recovery) expense	\$ 363,951 (150,000)	\$ 165,500 333,168
Total income tax expense	\$ 213,951	\$ 498,668

Notes to Consolidated Financial Statements

Year ended December 31, 2014

16. Income taxes (continued):

Income tax expense differs from the amount that would be computed by applying the federal and provincial statutory rate of 26.5% (2013 - 26.5%) to income before income taxes. The reasons for the difference are as follows:

	2014	2013
Income before income tax	\$ 1,280,082	\$ 1,466,217
Statutory tax rate	26.5%	26.5%
Computed tax expense	\$ 339,222	\$ 388,548
Increase (decrease) resulting from: Lower rate on preferred rate amount Small business deduction Non-deductible expense Other	(37,022) (55,000) 15,567 (48,816)	(183,821) (35,000) 11,666 317,275
Total income tax expense	\$ 213,951	\$ 498,668

The ultimate realization of future tax assets is dependent upon generation of taxable income during future periods in which the unused tax losses are available.

The Credit Union has net capital loss carryforwards of \$154,000 with no expiry date which are available to reduce future taxable income. The tax benefit of the losses will be recognized in the year that it is determined that it is probable that they will be realized.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

17. Employee future benefits:

The Credit Union has a defined benefit pension plan for certain management employees. All other employees of the Credit Union may elect to participate in the Canadian Credit Union Employees Pension Plan, a defined contribution plan, as provided by CUMIS Life Insurance Company.

The total expense for the pension plans are as follows:

	2014	2013
Defined benefit pension plan net benefit expense Defined contribution pension plan	\$ 802,800 163,000	\$ 1,110,700 196,180
	\$ 965,800	\$ 1,306,880

Information about the Credit Union's defined benefit plan is as follows:

	2014	2013
Accrued benefit obligation:		
Balance, beginning of year	\$ 10,277,800	\$ 10,985,600
Current service cost	1,000,900	1,195,000
Interest cost	533,900	478,600
Benefits paid	(626,000)	(320,100)
Actuarial losses (gains)	2,412,200	(2,004,800)
Administration fees	(69,100)	(56,500)
Balance, end of year	\$ 13,529,700	\$ 10,277,800
Disc consts.		
Plan assets:	¢ 0.000.100	Ф 0.000.000
Fair value, beginning of year	\$ 9,868,100	\$ 8,066,000
Expected return on plan assets	495,400	330,200
Employer contributions	944,300	521,100
Employees' contributions	236,600	232,700
Benefits paid	(626,000)	(320,100)
Actuarial gains	619,200	1,094,700
Administration fees	(69,100)	(56,500)
Fair value, end of year	\$ 11,468,500	\$ 9,868,100

Notes to Consolidated Financial Statements

Year ended December 31, 2014

17. Employee future benefits (continued):

Experience adjustments incurred were as follows:

		Defined Benefit Pensions					
			2013				
Accrued benefit obligation Plan assets	\$	(2,412,200) 619,200	\$	2,004,800 1,094,700			
Total for the year	\$	(1,793,000)	\$	3,099,500			

The accrued benefit liability is included in accounts payable and accrued liabilities.

The following table provides the amount recognized in the consolidated statement of financial position:

		Defined Benefit Pensions					
			2013				
Funded status (deficit) being accrued benefit liability included in other liabilities	\$	(2,061,200)	\$	(409,700)			
Net amount recognized	\$	(2,061,200)	\$	(409,700)			

The significant actuarial assumptions adopted in measuring the Credit Union's accrued benefit obligations are as follows:

	Defined Benefit Pensions		
	2014	2013	
Discount rate	4.00%	4.90%	
Rate of compensation increase	3.50%	3.50%	
Expected long-term rate of return on plan assets	4.00%	4.90%	
Rate of maximum pension increase	3.00%	3.00%	

The expected rate of return on plan assets is based on the risks and associated returns expected of the underlying plan assets. Plan assets are held in balanced funds which include equities and fixed income investments.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

17. Employee future benefits (continued):

The Credit Union's net benefit plan expense is as follows:

		Defined Benefit Pensions			
		2013			
Current service cost, net of employees' contributions Interest cost Expected return on plan assets	\$	764,300 533,900 (495,400)	\$ 962,300 478,600 (330,200)		
Net benefit plan expense	\$	802,800	\$ 1,110,700		

These net benefit plan expenses are included in salaries and employee benefits on the consolidated statement of income. Aggregate contributions relating to the defined benefit pensions plan for the year ended December 31, 2014 is \$944,300.

The defined benefit plan assets comprise:

	2014	2013
Mawer balanced fund Howson Tattersall Saxon balanced fund CUMIS retirement security fund	\$ 5,827,243 5,629,844 11,427	\$ 5,002,935 4,855,565 9,600
	\$ 11,468,514	\$ 9,868,100

The actual return on plan assets for the year-ended December 31, 2014 was \$495,400 (2013 - \$330,200).

A 1% decrease in the discount rate would increase the pension benefit obligation at December 31, 2014 by 20.5% or \$2,778,300 to \$16,308,000. In addition, a 1% decrease in the discount rate would increase the fiscal 2015 net service cost by 30.7% or \$351,000 to \$1,494,400.

A 1% decrease in the salary scale would decrease the pension benefit obligation at December 31, 2014 by 4.9% or \$660,500 to \$12,869,200. In addition, a 1% decrease in the salary scale would decrease the fiscal 2015 net service cost by 11.5% or \$131,000 to \$1,012,300.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

18. Fair value of financial instruments:

Estimated fair value of on-balance sheet financial instruments:

The amounts are designed to approximate the fair values of the Credit Union's financial instruments using the valuation methods and assumptions described below. Since many of the Credit Union's financial instruments lack an available trading market, the fair values represent estimates of the current market value of instruments, taking into account changes in the market rates that have occurred since their origination. Due to the use of judgement and estimates, the fair value amounts should not be interpreted as being necessarily realizable in immediate settlements of the instruments.

The estimated fair value of the Credit Union's financial instruments is set out as follows:

(000's of \$'s)			2014	2013
	Fair Value	Book Value	Fair Value Over (Under) Book Value	Fair Value Over (Under) Book Value
Financial assets (in 000's)				
Cash resources Loans to members Investments	\$ 21,935 715,456 57,447	21,935 711,717 56,792	_ 3,739 655	- 4,446 2,864
Financial liabilities (in 000's)				
Members' deposits Payables and accruals Loans payable Securitized liabilities Liabilities qualifying for regulatory capital	\$ 684,872 7,082 8,004 43,098 30,564	683,237 7,082 8,000 43,098 30,564	1,635 - 4 - -	2,630 - 2 - -

The following methods and assumptions were used to estimate the fair values.

Investments are valued using quoted market value prices when available. Book values are used when no quoted market prices are available and fair value cannot be determined reliably.

The estimated fair value of fixed rate member loans and fixed rate member deposits are determined by discounting the expected future cash flows of these loans and deposits at current market rates for products with similar terms and credit risks.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

19. Derivative financial instruments:

a) Notional amounts of derivatives:

The notional amounts of derivatives shown in the tables below do not represent amounts exchanged by the parties and, thus, are not a measure of the exposure of the Credit Union through its use of derivatives. The amounts exchanged are calculated on the basis of the notional amounts and the other terms of the derivatives, which relate to interest rates.

The Credit Union is exposed to credit-related losses in the event of non-performance by counterparties to financial instruments, but it does not expect any counterparties to fail to meet their obligations given their high credit ratings. The credit exposure of interest rate contracts is represented by the fair value of contracts with a positive fair value at the reporting date.

b) Interest rate risk management:

The Credit Union has entered into interest rate contracts to manage interest rate risk and variable rates to alter interest rate exposure. Interest rate swaps allow the Credit Union to finance transactions and effectively swap them into fixed rate terms. Under interest rate swaps, the Credit Union agrees with the counterparty to exchange, at the maturity date, the difference between fixed-rate and floating-rate interest amounts calculated by reference to the notional amount.

The following table indicates the swaps and options in place at December 31, 2014 and the interest rate.

Date Agreement Entered	Notional Principal		Fixed Rate	Start Date	Expiry Date		Fair Value		
Interest Rate Swaps									
May 30, 2013 May 30, 2013		0,000,000 5,000,000	1.43% 1.71%	Jan 15, 2014 Jan 15, 2015	Jan 15, 2015 Jan 15, 2016	\$	2,649 87,512		
						\$	90,161

						\$	91,069		

Notes to Consolidated Financial Statements

Year ended December 31, 2014

19. Derivative financial instruments (continued):

c) Foreign exchange forward contracts:

As part of its ongoing program of managing foreign currency exposure, the Credit Union enters into forward rate agreements to purchase US dollars. These agreements function as a hedge against the Credit Union's net US dollar denominated liability position. The net fair value of these contracts as at December 31, 2014 was \$4,924 (2013 - \$(22,443)).

d) Equity swap agreements:

The fair value of the index linked swap contracts at year end is approximately \$430,954 (2013 - \$341,162).

20. Related party transactions:

The Credit Union entered into the following transactions with key management personnel, which are defined by IAS 24, Related Party Disclosures, as those persons that have authority and responsibility for planning, directing and controlling the activities of the Credit Union.

	2014	2013
Compensation: Salaries and other short-term employee benefits Total pension and other post-employment benefits	\$ 834,516 110,860	\$ 847,380 134,844
	\$ 945,376	\$ 982,224
Loans to key management personnel: Aggregate value of loans advanced Interest received on loans advanced Aggregate value of unadvanced loans	\$ 793,770 19,163 76,695	\$ 895,303 30,875 118,744

The Credit Union's policy for lending to key management personnel is that the loans are approved and deposits accepted on the same terms and conditions which apply to members for each class of loan or deposit.

	2014	2013
Deposits from key management personnel: Aggregate value of term and savings deposits Total interest paid on term and saving deposits	\$ 536,929 8,059	\$ 452,802 5,777

Notes to Consolidated Financial Statements

Year ended December 31, 2014

20. Related party transactions (continued):

The Credit Union's policy for receiving deposits from key management personnel is that all transactions are approved and deposits accepted on the same terms and conditions which apply to members for each type of deposit. There are no benefits or concessional terms and conditions applicable to key management personnel or close family members.

The total remuneration paid to the directors and committee members amounted to \$140,075 (2013 - \$122,575). The aggregate value of loans to related parties is as follows:

	2014	2013
Directors and officers Staff	\$ 762,532 14,686,922	\$ 914,198 14,281,566
	\$ 15,449,454	\$ 15,195,764

All loans issued to related parties conform to the Credit Union's policies for terms, interest rates, limits and credit.

In accordance with the required disclosure under Ontario Regulation 237/09, section 28, of the Credit Unions and Caisses Populaires Act 1994, Mr. Albert W. Suraci, President and Chief Executive Officer was paid a salary of \$257,925 and received benefits amounting to \$34,352. Mr. Richard Adam, Senior Vice-President Finance and Administration was paid a salary of \$175,819 and received benefits amounting to \$26,638. Mr. Tony Dunham Senior Vice-President Sales and Service was paid a salary of \$179,569 and received benefits amounting to \$25,735. No other officer or employee of the Credit Union had remuneration greater than \$150,000 during the year.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

21. Financial risk management:

The Board of Directors has overall responsibility for the establishment and oversight of the Credit Union's risk management framework. The Board has established the Audit Committee and charged them with the responsibility for, among other things, the development and monitoring of risk management policies. An Asset Liability Committee (ALCO) has been established consisting of senior management and an external consultant. This committee meets on a monthly basis to review the results of income simulation models and duration analysis and reports regularly to the Board on its activities.

a) Liquidity risk:

Liquidity risk arises in the course of managing our assets and liabilities. It is the risk that the entity is unable to meet its financial obligations in a timely manner and at reasonable prices. The Credit Union's liquidity risk management strategies seek to maintain sufficient liquid financial resources to continually fund our balance sheet under both normal and stressed market environments. The Credit Union's liquidity risk is subject to extensive risk management controls and is managed within the framework of polices and limits approved by the Board. These policies and limits ensure, among other things, that the Credit Union is in full adherence to the regulatory requirements prescribed in the Credit Union Act as well as DICO's standards of Sound Business and Financial Practices. The Board receives regular reports on risk exposures and performance against approved limits.

The Credit Union believes that liquidity risk management is a necessary part of prudent financial administration, and is committed to engaging in proper liquidity risk management practices to comply with regulatory requirements and to guarantee the orderly funding of member needs and obligations. The Credit Union will ensure responsible liquidity risk management at all times to provide a cushion for unforeseen liquidity needs.

The key elements of the Credit Union's liquidity risk management framework establishes an overall framework of liquidity risk management which ensures that the Credit Union faces limited exposure to all material risks as well as addressing limits on the sources, quality and amount of liquid assets to meet normal operational, contingency funding for significant deposit withdrawals, and regulatory requirements.

The Credit Union targets to maintain operating liquidity within the range of 6% to 14%. The low end of the range has been established to maintain membership in Central 1. A cap has been placed on the range in recognition of the fact that too much excess liquidity has a negative impact on earnings. As at December 31, 2014 the Credit Union's liquidity ratio was 9.63% (2013 - 9.13%).

Assets held for liquidity purposes consist of cash resources designated as held for trading in the amount of \$21,934,700 and liquidity reserve deposits and term deposits held by Central 1 designated as loans and receivables totaling \$48,479,105.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

21. Financial risk management (continued):

a) Liquidity risk (continued):

The table below sets out the period in which the Credit Union's monetary assets and liabilities will mature and be eligible for renegotiation or withdrawal. In addition to the cash flows detailed below, the Credit Union is exposed to potential cash outflows in the form of commitments and contingencies as set out in note 15.

It is estimated that immediate and sustained parallel increase in interest rates of 1% across all maturities and currencies would increase net interest income by approximately \$428,000 and a decrease in interest rates of 1% across all maturities and currencies would decrease net interest income by approximately \$9,000 over the next twelve months using the following assumptions:

- (i) accrued interest receivable and payable as at December 31, 2014 are excluded from the calculation;
- (ii) no hedging or interest rate exposures are made;
- (iii) instruments reprice evenly within their respective time bands, and;
- (iv) existing credit commitments will not be drawn upon.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

21. Financial risk management (continued):

b) Credit risk

Credit risk is the potential for financial loss to the Credit Union if a borrower or guarantor fails to meet payment obligations in accordance with agreed terms. Every loan, extension of credit or transaction that involves settlements between the Credit Union and other parties or financial institutions exposes the Credit Union to some degree of credit risk.

The Credit Union's primary objective is to create a methodological approach to its credit risk assessment in order to better understand, select and manage our exposures to deliver stable ongoing earnings. The strategy is to ensure central oversight of credit risk, fostering a culture of accountability, independence and balance. The responsibility for credit risk management is organization-wide in scope, and is managed through an infrastructure based upon:

- Ensuring that credit quality is not compromised for growth;
- Diversifying credit risks in transactions, relationships and portfolios;
- Using our credit risk weighting and scoring systems, policies and tools;
- Pricing appropriately for the credit risk taken;
- Mitigating credit risk through preventive and detective controls;
- Transferring credit risk to third parties where appropriate through approved credit; and, risk mitigation techniques including insurance coverage.

c) Interest rate risk:

Interest rate risk is the sensitivity of the Credit Union's financial position to movements in interest rates. The Credit Union is exposed to interest rate risk when it enters into banking transactions with our members, primarily deposit and lending activities. When asset and liability principal and interest cash flows have different payment or maturity dates, this results in mismatched positions. An interest-sensitive asset or liability is re-priced when interest rates change, when there is cash flow from final maturity, normal amortization, or when members exercise prepayment, conversion or redemption options offered for the specific product. The Credit Union's exposure to interest rate risk depends on the size and direction of interest rate changes, and on the size and maturity of the mismatched positions. It is also affected by new business volumes, renewals of loans or deposits, and how actively members exercise options, such as prepaying a loan before its maturity date.

The Credit Union's interest rate risk is subject to extensive risk management controls and is managed within the framework of policies and limits approved by the Board. These policies and limits ensure, among other things, that the entity is in full adherence to the regulatory requirements prescribed in the Act as well as DICO's standards of Sound Business and Financial Practices. Overall responsibility for asset/liability management rests with the Board.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

21. Financial risk management (continued):

c) Interest rate risk (continued):

At the reporting date the interest rate profile of the Credit Union's interest-bearing financial instruments was:

	Carrying amount		
	2014 20		
Fixed rate instruments Financial assets Financial liabilities	\$ 605,129,338 307,813,111	\$	565,437,698 323,636,864
	\$ 297,316,227	\$	241,800,834
Variable rate instruments Financial assets Financial liabilities	\$ 153,989,576 370,495,139	\$	152,935,716 357,100,640
	\$ (216,505,563)	\$	(204,164,924)

Fair value sensitivity analysis for fixed rate instruments

The Credit Union does not account for any fixed rate financial assets and liabilities at fair value through profit or loss, and the Credit Union does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model; therefore a change in interest rates at the reporting date would not affect profit or loss.

A change of 100 basis points in interest rates would have increased or decreased equity by \$267,000 (2013 - \$2,093,790).

d) Market risk:

Market risk is the risk that changes in market prices, such as interest rates, equity rates, foreign exchange rates and credit spreads, will affect the Credit Union's income or the value of its holdings of financial instruments. The objective of market risk is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

The Credit Union uses income simulation modeling to measure exposure to changes in interest rates over short term periods. Earnings at risk, is calculated by forecasting the net interest margin for the next 12 months using the most likely assumptions. These assumptions include management's estimates of future growth rates, and future interest rates and term preferences of members. Future growth rates are initially based on the board approved budget. Future interest rates are based on the most current interest rate path. These earnings at risk are then shocked by a change in rates sustained for a 12 month period. The resulting change in the forecast as a result of the rate shock then determines the earnings at risk. Maximum limits are established under these scenarios and are approved by the Board of Directors.

Notes to Consolidated Financial Statements

Year ended December 31, 2014

21. Financial risk management (continued):

d) Market risk (continued):

Long-term interest rate risk is measured using duration analysis. The duration of an asset, is an expression of its term to maturity taking into account the yield of the asset.

Maximum limits are established for both earnings at risk and duration of capital and are approved by the Board of Directors. The current maximum limit and projected change is indicated below:

	Maximum limit	Projected change
0.50% shock down	\$ 750,000	\$ (93,000)
1.0% shock up	750,000	605,000

e) Foreign currency risk:

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Credit Union is exposed to foreign currency risk as a result of its members' activities in foreign currency denominated deposits and cash transactions. All foreign currency risk comes from U.S. dollar transactions. The Credit Union's foreign currency risk is subject to extensive risk management controls and is managed in accordance with the framework of policies and limits approved by the Board. These policies and limits ensure, among other things, that the entity is in full adherence to the regulatory requirements prescribed in the Act as well as DICO's standards of Sound Business and Financial Practices.

Prudent limits will be placed on unhedged liquid assets denominated in a foreign currency. Limits are established in relation to the size of the overall liquidity portfolio and are to apply at the time of purchase.

At December 31, 2014, the Credit Union was in compliance with Board policy on financial risk management.
